Antifa and BLM have taken over a small area of a couple blocks in Seattle a day ago and are announcing it as "Free Capitol Hill" or the "Capital Hill Autonomous Zone - CHAZ". There are solid barricades on the road with "you are now leaving the USA signs" and the nearby buildings have been claimed as property of CHAZ.

The Industrial Workers of the World and The Communist Party of USA (yes really) have expressed official support. As you may expect this will be quite the show. So please anons, kickback relax, and enjoy the show :-)

CHAZ demands:

The leaders of the zone are a suicidal tranny that apparently tried to kill him/her/itself earlier. Posted a message on twitter saying goodbye. (<https://twitter.com/anarchomastia/status/1270483223995224067>) and a failed rapper nog that looted some ARs from the abandoned police station and threatened to shoot any "nazis" and police.

QRD:

>they are trying to farm by planting seeds in some soil they spread over the concrete
>the nearby park will be used as a runway for gliders carrying supplies in case the city blockades them (supplies from China!)
>already infighting and arguing who is top on the oppression ladder

>later in the day the commie terrorists stormed city hall (an official uncocked the door for them) and somehow believe the act of them standing in the building means they won something

>after "storming" city hall and standing around they left proclaiming victory
>the entire day was spent standing around in a circle listening to nigs and trannies insult white people on the mike
>they watched some netflix after sundown and most people went home (promised to return)

>where is the police/NG/feds

The police stood down/left, pic related. Mayor is a cuck, the police chief is a nigger from Detroit and the city council are SJWs. All of them confirmed they will try to deescalate by defunding the cops and working with the community. Who will give the order? Unless Trump/feds do something the local authority is too scared. The antifags want bloodshed tho and Trump knows this.

>

>what's next

Pic is their expansion plan. A Whole Foods is close and an Amazon warehouse is several blocks away. Their plan for food is to just take over local grocery and food places and hope that those places keep restocking the shelves for them. Might face resistance if they go for the Orthodox Church, Russians and Eastern Euros don't play when it comes to churches.

Based anon went on an infiltration mission and posted pics from inside the Zone. The antifags are monitoring /pol/ and saw his pics, tried to hunt him down, but have failed so far.

>when your enemies are attacking you, do nothing or they win
-Mutt Zu, the Shart of War

It's fascinating that all these patriotic stories, Red dawn, Wolverine, Siege, Jericho, all those fantasies about a second civil war where true American spirit face the threat of communism... It was all a lie.

I get it. I really do. You will wait until they come for the suburbs. But in the end, does it really matters to preserve a few lives? Protecting your little neighborhood and your community? Will you live in a socialist country after that? Waiting for the State commissar to knock on your door?

Aren't symbols more important than your tranquility?
